Cancellation and Missed Appointment Policy

Our goal is to provide quality, individualized, chiropractic care in a timely manner. “No-shows” and late cancellations inconvenience those individuals who need access to care. We would like to notify you of our office policy regarding missed appointments. This policy enables us to better utilize available appointments for our patients in need of medical care.

Cancellation of an Appointment

In order to be respectful of the needs of other patients, please be courteous and call Accurate Chiropractic Clinic promptly if you are unable to show up for an appointment. This time will be reallocated to someone who is in need of treatment. If it is necessary to cancel your scheduled appointment, **we require that you call at least 24 hours in advance**. Appointments are in high demand, and your early cancellation will give another person the possibility to have access to timely chiropractic care.

How to Cancel Your Appointment

To cancel appointments, please call 352-684-2707.

Multiple Missed Appointments

Multiple missed appointments will have a negative effect on your progress. If you find yourself habitually cancelling your appointments, or consistently stressed about making it on-time, please ask to speak with our patient coordinator so that you can be properly rescheduled.

No Show or Late Cancellation Policy

A "no-show" or "late cancellation" is someone who misses an appointment without cancelling it within 24 hours. A failure to be present at the time of a scheduled appointment will be recorded in your medical record as a "no-show".

- First missed appointment: there will be no charge
- Second and Additional missed appointments: \$25.00 fee will assessed to your account. This fee is not covered by insurance.

By signing below, I attest that I have read and understand the above cancellation and missed appointment policy.

INFORMED CONSENT REGARDING NUTRITIONAL AND HERBAL SUPPLEMENTS

According to the Federal Food, Drug, and Cosmetic Act, as amended, Section 201(g) (1), the term drug is defined as an “article intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease.” Technically, vitamins, minerals, trace elements, amino acids, herbs, or homeopathic remedies are not classified as drugs. However, these substances can have significant effects on physiology and must be used rationally. In this office, we provide healthcare counseling and make individualized recommendations regarding use of these substances in order to upgrade the quality of foods in a patient’s diet and to supply nutrition to support the physiological and bio-mechanical processes of the human body.

Although these products may also be suggested with a specific therapeutic purpose in mind, their use is chiefly designed to support to given aspects of metabolic function. Use of nutritional supplements may be safely recommended for patients already using pharmaceutical medications (drugs), but some potentially harmful interactions may occur. For this reason, it is important to keep all of your healthcare providers fully informed about all medications and nutritional supplements, herbs, or hormones you may be taking.

Sale of Nutritional Supplements at Accurate Chiropractic Clinic

You are under no obligation to purchase nutritional supplements at our clinic. As a service to you, we make nutritional supplements available in our office. We purchase these products only from manufacturers who have gained our confidence through considerable research and experience. We determine quality by considering: (1) the quality of science behind the product; (2) the quality of the ingredients themselves; (3) the quality of the manufacturing process; and (4) the synergism among product components. The brands of supplements that we carry in our facility are those that meet our high standards and tend to produce predictable results.

While these supplements may come at a higher financial cost than those found on the shelves of pharmacies or health food stores, the value must also include assurance of their purity, quality, bio availability (ability to be properly absorbed and utilized by the body), and effectiveness. The chief reason we make these products available is to ensure quality. You are not guaranteed the same level of quality when you purchase your supplements from the general marketplace. We are not suggesting that such products have no value; however, given the lack of stringent testing requirements for dietary supplements, product quality varies widely. If you have concerns about this issue, please discuss them with our staff.
